

# SCCM Critical Care Echocardiography and Ultrasound Course

Friday, October 18, 2024

AdventHealth Nicholson Center

Join this comprehensive ultrasound course and gain practical skills in ultrasound image acquisition and interpretation in the critical care setting. Learn fundamental and advanced ultrasound techniques including cardiac output, left/right ventricular function, FATE examination, and vascular ultrasound. This hands-on training includes both Transthoracic(TTE) and Hemodynamic Transesophageal echocardiography(hTEE) under expert supervision to enhance your problem-solving abilities. Led by expert instructors, this course will increase patient outcomes and enhance your professional profile. Don't miss out on the opportunity to network with peers and experts in the field!
